

THE UPFIT YOU DESERVE

MID-RANGE FLOOR

BASEGLASS

Lightweight floor - heavyweight performance.

BaseGlass is an **mid-range flooring solution**. Made from a fiberglass composite and a polypropylene core, BaseGlass is engineered to be thin yet incredibly robust. Manufactured as a one-piece floor, installation is hassle-free and simple. For applications where mild wear and tear is a frequent occurrence.

**FIBERGLASS
COMPOSITE**

4.36MM

SLEEK, TOUGH, AND AFFORDABLE

BaseGlass doesn't boast the same thickness or performance as StabiliGrip but it does its best to compete.

Sitting at a sleek 4.36mm thickness, BaseGlass utilizes the strong fiberglass inlay to provide structural durability and stability. The perfect choice for mild wear and tear on the road.

Where it beats out StabiliGrip is price. As a mid-range option BaseGlass is an affordable way to protect your fleet.

Available Flooring Options

Available for most Vehicle Models

**BaseGlass is only available for mid to large fleet orders, NOT individual vans.*

ONE-PIECE FABRICATION

BaseGlass is produced as a one-piece floor. That means no joiner strips or h-tracks are required for installation.

What that means for you is a stress free installation and a quick turnover in order delivery. Plus - easy maneuverability of heavy and awkward equipment across the uniform surface.

BASEGLASS TESTING

Physical Properties	Value	Physical Properties	Value
Tensile Strength	33.5 KSI 231 N	Fogging / Odor / Smell	PASS
Static CoF Dry	1.27	Weathering and UV Testing	PASS
Static CoF Wet	0.75	Flammability Testing	PASS
Screw Pull Testing (N)	827	Abrasion Resistance (Taber, 500g)	0.4483g
Dimensional Stability (@20C & -70C)	PASS	Cupping (8h of heat exposure)	0.03%
Specific Gravity (g/cm ³)	1.4g/cm ³
